Hi there, I am a striving Full Stack Web developer who is also a design enthusiast.

- I have experience working with various projects as I worked serving many websites to different sort of clients for different businesses.
- I have the ability to self learn and cope up with the latest trends.
- I have used organizational and communication skills to achieve project requirements.

EXPERIENCE

2017 – 2018

FRONT END DEVELOPER, ENRAGE TECH, JALANDHAR, INDIA

Provided front end REACT based websites already integrated with a powerful backend with various features to different clients.

2015 – 2017

INTERNSHIP FRONT END DEVELOPER, ENRAGE TECH, JALANDHAR, INDIA

I started as a fresher with designing simple static web pages for the company's projects but later on got involved in working with React in Front End Development as my interest began to grow in React.

PROJECTS

FACEBOOK-CLONE: REACT | NODE | EXPRESS | MONGO DB

Facebook clone is a similarly designed social-media application as facebook. I tried to create most of the features which are found in the original application.

REACTOR: REACT | NODE | EXPRESS | MONGO DB

Reactor is an ultimate idea to sell or promote React components as products online by unlimited number of users throughout the world. Server side has been finished already. Design is currently under development.

HOUSE-RENTAL: ASP.NET | MYSQL SERVER | SQL

Facebook clone is a similarly designed social-media application as facebook. I tried to create most of the features which are found in the original application.

TASK-IT: REACT | NODE | EXPRESS | POSTGRESQL

Task it is a to-do based application that keeps the record of your tasks which you input to the application. This app is currently under development.

SHOPPER-STOP: REACT | NODE | EXPRESS | MONGO-DB

Shopper stop is an online shopping website which provides a great ui for the user to explore a lot of items to shop. This app is finished with the design the development will be started soon.
