PROFESSIONAL SUMMARY

- An IT professional with approx. 4 years of experience in Application Development, Maintenance and Support.
- Seeking to leverage my technical and professional expertise to grow in my new role in your company.
- Result oriented team leader and a reliable team player, able to communicate effectively with people of all ages and backgrounds.
- Passionate programmer, self-initiator and self-learner, able to analyze and resolve the issues by taking ownership independently and always willing to learn new things.

EXPERIENCE

2017 – 2018
FRONT END DEVELOPER, ENRAGE TECH, JALANDHAR, INDIA
Provided front end REACT based websites already integrated with a powerful backend with various features to different clients.

2015 – 2017
INTERNSHIP FRONT END DEVELOPER, ENRAGE TECH, JALANDHAR, INDIA
I started as a fresher with designing simple static web pages for the company's projects but later on got involved in working with React in Front End Development as my interest began to grow in React.

- <u>VERSION CONTROL SYSTEM</u>: GIT, GITHUB, BITBUCKET

- <u>UI/UX</u>: HTML, CSS, PREPROCESSORS(SASS, PUG), FIGMA, PHOTOSHOP, ADOBE XD, ADOBE ILLUSTRATOR

PROJECTS

FACEBOOK-CLONE: REACT | NODE | EXPRESS | MONGO DB
Facebook clone is a similarly designed social-media application as facebook. I tried to create most of the features which are found in the original application.

REACTOR: REACT | NODE | EXPRESS | MONGO DB
Reactor is an ultimate idea to sell or promote React components as products online by unlimited number of users throughout the world. Server side has been finished already. Design is currently under development.

HANGMAN: REACT
The classic game made with react providing a great design and additional features on the way. Like anyone can add additional categories and register their score to the wall of fame.

ISSUES TRACKER: REACT | NODE | EXPRESS | MONGO-DB
Issues tracker is a solution to create a world free of potholes and bumps on the streets. This application is integrated with **mapbox** and **nodemailer.**

LOOPER: REACT | NODE | EXPRESS | MONGO DB
Looper is a social media application that I made during last winter break using MERN stack.

WHATSAPP-CLONE: REACT | NODE | EXPRESS | MONGO DB
Whatsapp-Clone is a social media messaging application with a design similar to the original whatsapp having most of the features integrated as well.
